

Saab Grintek

MANAGED APPLICATIONS

The Managed Applications Division offers a variety of solutions and services aimed at leveraging the investment our customers have made in their network. The solutions focus on improving quality (QoS), boosting loyalty, maximising revenue potential, managing risk, as well as adhering to the legislative and regulatory environments of our customers in South Africa, the SADC region, and other African countries.

SOLUTIONS PROVIDED INCLUDE:

- Integrated Passive Monitoring and Network Assurance Services
- Revenue maximisation and network optimisation solutions
- Solutions to help diversify operator services offerings
- Regulatory or mandated solutions, such as lawful interception and number portability
- Quality of Service (QoS) and Active Testing solutions

- Device management
- VOIP, soft switching platforms
- IP Centrex services

Solutions provided by Saab Grintek Technologies assist operators to maximise the customer's experience on their networks, increase ARPU, meet legal and regulatory requirements, which support the drive to increase and defend market share.

Our solutions assist operators to quickly diagnose and resolve challenges in their networks contributing to a reduction in operational costs. The tools and solutions provided assist with network capacity planning and network optimisation, thereby improving quality of service.

SUCCESS STORIES:

- The successful implementation and ongoing management of the Number Portability solution and infrastructure in South Africa

- Mobile Device Management solutions have been successfully deployed with select mobile operators in Southern Africa
- Large scale Network Assurance deployments have been implemented across leading South African mobile and fixed-line network operators
- Active Testing Solutions have been successfully installed and supported in several mobile operators in Southern Africa
- Leading network operators are benefitting from our best-of-breed Lawful Interception portfolio that allows for adherence to the regulatory framework
- A Softswitch solution was deployed for a leading network operator in South Africa.

Saab Grintek

SAAB GRINTEK TECHNOLOGIES

Saab Grintek Technologies (SGT) is a telecommunications company offering a comprehensive range of end-to-end services and solutions to operators, OEMs, enterprise and governments. We specialise in integrated, leading edge and comprehensive solutions across the entire spectrum of telecommunications. Our company's vision is to be the innovative systems integrator of choice for telecommunications solutions.

Utilising expertise from all our divisions, where necessary, and in conjunction with our partners, we are able to offer any combination of:

- Technology strategy and network consulting
- Wireless and wireline core and access transmission
- End-to-end turnkey network solutions from concept to deployment and support
- Managed services including partial or complete outsourcing and out-tasking of entire networks or sub-sectors
- Planning, installation, commissioning, integration and optimisation

- Programme / project management skills relevant to the industry
- Generic and specific training in telecommunications in general, as well as specialised training on equipment from respective OEMs
- Power solutions and efficiency optimisations to reduce power usage on the overall power grid.

“YOUR PARTNERSHIP TO TELECOMMUNICATIONS SUCCESS”

The company has been in the industry for over 20 years and has its headquarters in Centurion in South Africa. SGT has built up a solid reputation in the industry for delivery and consistent, measureable value add to its customers.

The company has been *ISO 9001:2000* accredited for 11 years through DEKRA and will be implementing the latest *ISO 9001:2008* accreditation and boasts industry proven processes and procedures.
