

SATELLITE SERVICES

Saab Grintek Technologies has been providing satellite-based solutions and services to operators, government, commerce and industry for over 13 years. The company provides turnkey and comprehensive, end-to-end solutions in:

- Satellite, terrestrial infrastructure deployment
- Specialised satellite services, examples
- VSAT, fixed and mobile satellite solutions and services
- SCADA telemetry solutions via satellite
- Broadcast extension and integration solutions.

The solutions provided to our customers have assisted them to rapidly deploy services to their customers, provide mobile services to rural areas of South Africa, connect remote sites quickly and cost-effectively. Our solutions have saved our customers considerable amounts of

Capex and Opex compared to alternative technologies.

SUCCESS STORIES:

- Deployed a mobile satellite ATM solution for a leading bank in South Africa.
- Turnkey implementation of a SCADA network to provide telemetry services from remote distribution points for the largest utility company in South Africa.
- Turnkey supply of mobile satellite solutions for the South African Government for mobile community service center's.
- A complete mobile satellite solution for a leading press agency in Angola.
- Supply of VSAT solutions, equipment and support for a leading telecommunications operator with more than 7000 sites in Southern Africa.

Saab Grintek

SAAB GRINTEK TECHNOLOGIES

Saab Grintek Technologies (SGT) is a telecommunications company offering a comprehensive range of end-to-end services and solutions to operators, OEMs, enterprise and governments. We specialise in integrated, leading edge and comprehensive solutions across the entire spectrum of telecommunications. Our company's vision is to be the innovative systems integrator of choice for telecommunications solutions.

Utilising expertise from all our divisions, where necessary, and in conjunction with our partners, we are able to offer any combination of:

- Technology strategy and network consulting
- Wireless and wireline core and access transmission
- End-to-end turnkey network solutions from concept to deployment and support
- Managed services including partial or complete outsourcing and out-tasking of entire networks or sub-sectors
- Planning, installation, commissioning, integration and optimisation

- Programme / project management skills relevant to the industry
- Generic and specific training in telecommunications in general, as well as specialised training on equipment from respective OEMs
- Power solutions and efficiency optimisations to reduce power usage on the overall power grid.

"YOUR PARTNERSHIP TO TELECOMMUNICATIONS SUCCESS"

The company has been in the industry for over 20 years and has its headquarters in Centurion in South Africa. SGT has built up a solid reputation in the industry for delivery and consistent, measureable value add to its customers.
