

Saab Grintek

WIRELINE CUSTOMER ACCESS SOLUTIONS

Saab Grintek Technologies has for many years been in the forefront of providing access solutions to operators for their customers. Together with its partners and suppliers the company offers:

- Multi-protocol, customer access gateways for wire line networks
- ADSL, leased line and fibre optic customer premises equipment
- Turnkey copper and fibre-optic access network installations
- Tailored solutions and delivery to suit customer requirements
- Support services with technical support based in South Africa
- Laboratory environment for demonstrations and product valuations.

The solutions provided by the company have assisted operators to expand and enhance the services to customers all the while saving the operator implementation

and support costs in the long run. The flexibility of its solutions has resulted in significant savings on replacement and operational costs and improved time to market.

SUCCESS STORIES:

1. 2008/9: ADSL supply and integration of multi-protocol gateway CPE for national projects for a major fixed line operator in South Africa
2. 2009: ADSL - Supply and integration of multi-protocol gateway CPE for the Fifa Confederations Cup and 2010 World Cup project for a major fixed line operator in South Africa
3. SGT has been successful with the complete outsourcing of ADSL customer access solutions for a major international OEM for a large fixed-line operator in South Africa.

Saab Grintek

SAAB GRINTEK TECHNOLOGIES

Saab Grintek Technologies (SGT) is a telecommunications company offering a comprehensive range of end-to-end services and solutions to operators, OEMs, enterprise and governments. We specialise in integrated, leading edge and comprehensive solutions across the entire spectrum of telecommunications. Our company's vision is to be the innovative systems integrator of choice for telecommunications solutions.

Utilising expertise from all our divisions, where necessary, and in conjunction with our partners, we are able to offer any combination of:

- Technology strategy and network consulting
- Wireless and wireline core and access transmission
- End-to-end turnkey network solutions from concept to deployment and support
- Managed services including partial or complete outsourcing and out-tasking of entire networks or sub-sectors
- Planning, installation, commissioning, integration and optimisation

- Programme / project management skills relevant to the industry
- Generic and specific training in telecommunications in general, as well as specialised training on equipment from respective OEMs
- Power solutions and efficiency optimisations to reduce power usage on the overall power grid.

“YOUR PARTNERSHIP TO TELECOMMUNICATIONS SUCCESS”

The company has been in the industry for over 20 years and has its headquarters in Centurion in South Africa. SGT has built up a solid reputation in the industry for delivery and consistent, measurable value add to its customers.
